## WATER THROUGH THE CENTURIES

**Past** Deep within the thick vegetation and inaccessible to most people, the **Vallechiara springs were known since the tenth century AD for the characteristics of their water.** Otto I of Saxony (950 AD), Charles V Holy Roman Emperor (1532 AD) and Victor Amadeus of Savoy (1708 AD) appreciated its delicate taste and crystal clear purity; **even Napoleon, having passed through this area a few times, became an exceptional testimonial.**

Vallechiara springs are known since XI century for **the quality of their water**

We have chosen **clean energy**

**No fossil fuels are used in powering our facilities:** our energy derives from renewable and non-polluting sources, to support the environment and at the same time draw **attention to the environment's need for our care.**

**Present** Terme Vallechiara spa was founded in 1965, and after some changes in ownership, it was acquired in 2004 by Sergio Parato, who transformed it into what it is today: **a modern business, with a historic character.**

Gambero Rosso (Red Prawn) Magazine ranks it among **the ten best waters in Italy,** successfully exported overseas.

Vallechiara mineral water preserves all the characteristics that have made it **one of Italy's top ten,** recognised by the prestigious publication Gambero Rosso since 2002. Mentioned in 2006 by ADAM (Associazione Degustatori Acque Minerali, Association of Mineral Water Tasters) in the renowned "Charter on water". **It is well exported to France, Great Britain, Middle East and Asia,** where it sponsors numerous social and sporting events.

We choose only **"Clean Energy" derived from renewable sources**

We relentlessly continue to pursue new goals, which we would like to achieve with and for our clients: **a "water culture" that fully clarifies that water is not all the same,** an alliance with local businesses to support our economy and short supply chain, and respect for the environment, for which we choose only "Clean Energy" derived from renewable sources.

**"Renowned" success**

Throughout the past years, Vallechiara mineral water **has enjoyed recognition both nationally and internationally.** Since 2002, it has been included in the Gambero Rosso top ten mineral waters in Italy, and it was rated in 2006 by ADAM (Associazione Degustatori Acque Minerali, Association of Mineral Water Tasters) **as one of the best waters served with fish and game.**

TERME VALLECHIARA USES CLEAN ENERGY
